The most intense, anxious and anguishing moments of your career as a small business owner won't be about not making a profit - they will be about being out of cash. Manage your business to be profitable, but operate it to maximize cash flow.

To do that, you must be able to prepare for the cash peaks and valleys that all businesses experience. It is critical to analyze your business cash flow cycle and devise a plan to ensure that you have the operating funds you need for a successful operation of your business. Come join as we discuss how to better understand your business cash flow.

Brewer Business Resources is a program of the City of Brewer's Economic Development Office and is open and free to small business owners and entrepreneurs in Brewer and its surrounding communities.
