

Engineering Department Project Manager/Designer

The City of Brewer, Maine is seeking a highly motivated team-oriented individual with strong communication skills to fill the full-time position of Engineering Department Project Manager/Designer.

The successful candidate will have worked in a fast paced office environment, with the ability to prioritize multiple work projects. A minimum of five years' experience designing and completing cost estimates for urban and rural streets, sanitary and storm sewer systems and site plans of varying complexity is essential. The successful candidate will also be able to follow instructions and work well with the public and other professionals. Demonstrated proficiency with computer software, including AutoCAD Civil 3D, Microsoft Word and Excel, is required. Experience managing or coordinating projects funded or administered by the MDOT is preferable. The successful candidate will also be organized and be able to utilize and maintain complex digital and paper plan filing systems.

This is a full time 40-hour per week salaried position with one of the State's most dynamic and exciting communities. The successful candidate will receive a competitive salary, commensurate with his or her education and experience, as well as a comprehensive benefits package. Letters of interest, resumes and professional references should be sent to Frank Higgins, P.E., City Engineer at 221 Green Point Road, Brewer, ME 04412. This position will remain open until filled.

The City of Brewer is an Equal Opportunity Employer
