

HOW TO RECYCLE YOUR TRASH

ONE BIN ♻️ ALL IN

Your Trash Can is now your Recycling Bin!

- 🌱 Break down cardboard boxes and packaging.
- 🌱 Empty all containers and bottles (especially plastic) of food/liquid, rinse and leave any caps on.
- 🌱 Cut up garden hoses, rope and tarps, etc.- Nothing over 3ft. should be thrown in with household waste as it tangles the equipment.
- 🌱 Recycle lightbulbs, batteries, electronics, propane tanks, and paint at local take back sites.
- 🌱 Place needles and sharps in a detergent bottle, mark and seal.
- 🌱 Donate clothes, accessories, and bedding, etc. to thrift shops – (Goodwill, particularly, will take anything that is clean and dry – ripped and torn is ok!)
- 🌱 No yard waste – grass, brush, leaves, or tree limbs.
- 🌱 No tires, mattresses, old furniture, carpets, home improvement debris, or power tools, etc. should be mixed in with your trash.
